

H0106 Estación de Molins de Rei

Zona 5: Cubierta y barandillas cubierta

Unión zona 1 + zona 2 + zona 3 + zona 4 + zona 5

Infografía del resultado al terminar esta quinta parte

Introducción a la 5a parte:

Proceso de montaje:

Después de pintar todas las piezas de las barandillas:

1. Montar las barandillas grandes
2. Unir las barandillas entre si formando dos conjuntos simétricos de barandillas.
3. Añadir al conjunto las barandillas más pequeñas.
4. Pintar las cinco partes de la cubierta
5. Pegar la cubierta sobre el edificio montado hasta ahora
6. Pegar sobre la cubierta las barandillas izquierda y derecha
7. Añadir la pequeña construcción sobre la cubierta en el frontal
8. Por último añadir el "campanario" en el lado vía.

Dar la vuelta al conjunto para tener mejor visión

Vista de la barandilla completada hasta ahora, se trata del lado izquierdo de la estación.
A partir de aquí se va a montar el lado derecho, que es completamente simétrico al izquierdo.

Pintar la terraza de la cubierta como se indica en el siguiente despiece.
La zona de color claro debería pintarse por ambos lados.

En este último apartado montar lo que llamamos "el campanario".

En alguna de las unidades de la Estación de Molins de Rei, el campanario se ha fabricado de una sola pieza, así que solo necesitará observar los siguientes gráficos para ver como está pintado, si su unidad es de una pieza.

FINAL PARTE 5
